

**Exploring the views of people affected by Huntington's disease on an AI-interface for the future delivery of a psychological intervention to improve mental health**

We are looking for people with

- pre-manifest or manifest Huntington's disease
  - access to Microsoft Teams and screen share (support can be provided)
- to take part in a study that will involve
- interacting with an AI computer system and asking it questions
    - an immediate follow-up interview

We anticipated the study will take up to 2 hours and are offering a **£25 Amazon voucher** for taking part

If you are interested in taking part in the study, please email Hannah Gotheridge at:  
[h.gotheridge@lancaster.ac.uk](mailto:h.gotheridge@lancaster.ac.uk)

This study has been approved by the Faculty of Health and Medicine Research Ethics Committee at Lancaster University (ref: [inset once approved]).
