

In aid of

**Huntington's
Disease
Association**

Dear

I am getting involved in the Huntington's Disease Association Odds And Socks Day as it is a cause close to my heart.

It would be amazing if we could share this fundraiser to get more people involved.

*Join us on Thursday 27 February to celebrate Odds And Socks Day!
Wear and share your wildest odd socks to help us raise awareness of the
disease as well as vital funds for people affected by Huntington's disease.*

Odds And Socks Day is a fundraising and awareness day held by the Huntington's Disease Association - the only charity in England and Wales that supports anyone affected by Huntington's disease.

You can download a helpful fundraising guide and download materials from the Huntington's Disease Association's website to help make the day a huge success.

Huntington's disease is genetic with 50:50 odds of inheriting it. That's a one-in-two chance. We've launched Odds And Socks Day to highlight the odds of inheriting Huntington's.
